

Dart

Game Suggestions:

Around the Clock

Accessories: Bean bags

Play in groups or 1 on 1. Throw the bag and hit all the numbers starting with 1. Player number one throws the bag. If he hits the right number, he is allowed to throw again. If not, switch turn and so on. The winner is the one who gets through all numbers first.

Black and white

Accessories: Bean bags

Divide the group in two. Throw 2 or 3 bags. Add the numbers and find the sum. The winning team is the team, who gets to 250 first. Group one can only score points by landing on black fields the other one only on white fields. Hitting a field in another colour doesn't count.

Regular Dart - 201 or 301

Accessories: Bean bags

Each team gets 3 bean bags. Throw the bag and hit if possible the highest numbers.

The sum of the three numbers has to be subtracted 201 or 301 (if necessary use a calculator). The winning team is the team, who gets to the sum of 0 or close to first.

Hit the right sum

Accessories: Bean bags

Each team has 3 bean bags. Each team gives the other team tasks. E.g. hit the sum of 36. Every time the task is solved it gives a bonus of 1 point.

Can be varied by saying numbers hit in the inner circle gives double.

Game Suggestions:

Say the number!

Accessories: Bean bag

A quick simple game leaning numbers.

Participants throw a bean bag and must say the name of the figure the bean bag lands on.

Multiplication (bigger kids)

Accessories: Bean bags, Cones

Make 2 teams. Both teams throw one bag, the one closest to the center (Bulls Eye) starts.

Place a cone on a number e.g. 14.

The starting team then throws one bag and opposing team, has to come up with the right answer by multiplying 14 with number the number hit e.g. 11.

Each right answer gives a point, and the winner is the team who gets to 10 first.

Can be varied and instead of multiplying add or subtract the numbers.

Again, each right answer gives a point and the winner gets to 5 first.

Interdisciplinary

Accessories: Bean bags

Prepare questions or other tasks to begin with.

Agree in advance the rules for which figures etc. triggers a question.

Throw one or two bean bags. The sum of the field on which the bags lands decides the level of the question. The higher sum the more difficult task.

The task can e.g. be a spelling word. Each right answer gives point.

Curling

Accessories: Hopscotch Stone

Play curling by placing 1, 2 or 3 stones as close as possible to the circle in the middle.

You are allowed to push away other stones.

The winner is the one, who gets his stones Closest to Bulls Eye in the middle.

Scram

Accessories: Bean bags

Make two teams, first team is called the stopper, the second team is called the scorer.

Team stopper throws three bags first and is trying to hit all of the numbers on the board, from 1 through 20, one time, in any order.

Once the stopper has hit a number, the scorer cannot score points on that number. Once the stopper has hit all of the numbers, the scorer adds up his points and the roles are reversed.

The objective is to score as many points as possible. In the event of a tie, shoot at the bull's-eye to determine the winner.
